A large lanai had been erected on the terrace; this was beautifully decorated with palms, vines and hanging baskets; here the refreshments were served and a band of Hawaiians sang old Hawaiian songs, during the afternoon. There were some perfectly lovely gowns worn by the ladies, and the whole terrace looked like a beautiful flower garden. ## The Victor Victrola

The most wonderful musical instrument the world has ever seen

THE greatest step forward made in any musical instrument since the advent of the Victor. There is no horn. The music comes from a beautiful cabinet which is an ornament to any drawing room. All mechanical sounds are shut in by a lid. "Where does the music come from?" you ask. Beneath the lid of the Victrola is a turntable on which is placed the Victor record. From there the tone is carried through the arm down to the sound board surface, which amplifies and reflects it. The music comes through a little door in the side of the cabinet.

A moment's inspection of the Victrola will convince you that it has no equal. We will be pleased to show it and have it play for all visitors at our store.
